Reliablity Engineering and System Safety **29** (1990) 409–410

CONTENTS OF VOLUME 29

Number 1

Special Issue on The Use of Reliability and Risk Methods in the US Chemical Process Industry

Guest Editorial 1

Tools for Analysis and Tools for Action: A History of the Projects and Publications of the Center for Chemical Process Safety 5
THOMAS W. CARMODY (USA)

Using Qualitative Methods to Manage Risk 15
P. F. McGRATH (USA)

Process Risk Evaluation—What Method to Use? 27
DAVID F. MONTAGUE (USA)

Quantitative Risk Analysis in the Chemical Process Industry 55
GARY R. VAN SCIVER (USA)

A Survey of Modeling Techniques for Consequence Analysis of Accidental Chemical Releases to the Atmosphere 69
MICHAEL T. MILLS & ROBERT J. PAINE (USA)

Risk Associated with the Demilitarization of the United States Chemical Weapons Stockpile 103
G. F. FLANAGAN, W. FRAIZE & T. KARTACHAK (USA)

Using Quantitative Risk Assessment in the Chemical Process Industry . . 133
J. S. ARENDT (USA)

Calendar 151

Number 2

Response Surface Approximation of a Fire Risk Analysis Computer Code . 153
MARK BRANDYBERRY & GEORGE APOSTOLAKIS (USA)

A Model-Based Approach to On-Line Process Disturbance Management: The Application 185
INN S. KIM, MOHAMMAD MODARRES & R. NIALL M. HUNT (USA)

A Method Based on the Relation between Frequency and Probability Density Function to Estimate the Values of the Parameters 241
CAO TIANJIE & ZHOU ZEGONG (People's Republic of China)

Some Factors Affecting Precision in Estimators of Parameters of Lifetime Distributions 249
D. J. LEECH & A. J. WATKINS (UK)

A New Approximate Method for Uncertainty Propagation in System Reliability Analysis 261
QIN ZHANG (People's Republic of China)

Book Review 277

Calendar 279

Reliability Engineering and System Safety (**29**) (1990)—© 1990 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Number 3

Special Issue on Human Reliability Analysis

Editorial 281

Guest Editorial: Human Reliability Analysis—Where Shouldst Thou Turn? . 283

Human Reliability Analysis: Need, Status, Trends and Limitations . . . 301
ALAN D. SWAIN (USA)

Letter to the Editors 315
ARTHUR N. BEARE & CATHERINE D. GADDY (USA)

Cognitive Theory, Identifiability and Human Reliability Analysis (HRA) **(Technical Note)** 317
BARRY H. KANTOWITZ (USA) & YUSHI FUJITA (Japan)

A Solution to Dougherty's Apprehensions? **(Technical Note)** 329
G. MANCINI (Italy)

Dougherty's Dilemma and the One-sidedness of Human Reliability Analysis (HRA) **(Technical Note)** 337
NEVILLE MORAY (USA)

Human Reliability Analysis—Why Not Turn to the Human Factors Community? **(Technical Note)** 345
THOMAS G. RYAN (USA)

Dynamic Accident Sequence Analysis in PRA: A Comment on 'Human Reliability Analysis—Where Shouldst Thou Turn?' **(Technical Note)** 359
N. SIU (USA)

Another View of the State of Human Reliability Analysis (HRA) **(Technical Note)** 365
ANTHONY SPURGIN (USA)

Letter to the Editors 371
ALAN D. SWAIN (USA)

On Taking Human Performance Seriously in Risk Analysis: Comments on Dougherty **(Technical Note)** 375
DAVID D. WOODS (USA)

Letter to the Editors 383
JOHN WREATHALL (USA)

Risk and Human Performance: Measuring the Potential for Disaster . . . 387
DAVID D. WOODS (USA)

Calendar 407
